House Appropriations Request FY 2011

Project Name: Nano-structured Materials for Energy Research
Recipient: North Carolina State University
Recipient Address: 2701 Sullivan Drive, Campus Box 7214

Recipient City: Raleigh
Recipient State: North Carolina
Recipient Zip: 27695

Amount of Request: \$1,000,000.00

Explanation of the request:

The requested funding will be used to further develop previously funded research, develop proof-of-concept results and significantly advance this important, wide-ranging technology. This project will utilize North Carolina State's broad expertise in many areas of nanoscale science and energy research. This project is a valuable use of taxpayer funds because new technology for low cost renewable energy that minimizes production of greenhouse gases is one of the most important and scientifically difficult challenges of the 21st century.

In order to offer more opportunity for public scrutiny, I have posted information on each project request submitted to the Appropriations Committee at the time the request was made.
